Little Farmstead Living Nov 12 2020 A home tells a story; it should be a celebration of the family that resides there. For well-known Instagram influencer (@littlefarmstead) and lifestyle blogger Julie Thomas, family and friends are at the center of it all. Through stories of transforming a fixer-upper into a charming farmhouse for her loved ones to enjoy, Julie reveals dozens of simple ways that anyone can bring warmth, joy, and meaning to their everyday homes. From farmhouse gatherings to seasonal decorating--plus a chapter on making Christmas magic--this beautiful and practical hardcover volume is one to turn to again and again. Whether you're smack in the city, out in the country, or living life in the suburbs, you can begin creating the home of your dreams . . . in the space you live in now.

Smarter Jun 27 2019 "A riveting look at the birth of a new science." —Daniel H. Pink, author of *Drive* When he was eight years old, Dan Hurley was labeled a "slow learner" because he still couldn't read. Three years later, he had become a straight A student. Until the publication of a major study in 2008, psychologists believed that intelligence is fixed at birth, that IQ is like a number tattooed on the soul. The new study showed that people can increase their "fluid" intelligence through training. Hurley, who grew up to become an award-winning science journalist, first explored the topic in *The New York Times Magazine*. In *Smarter*, he digs deeper by meeting with the field's leading researchers—and becoming a human guinea pig. After just three months of playing computer brain-training games, joining a boot-camp exercise program, learning to play the Renaissance lute, practicing mindfulness meditation and and even getting his brain zapped in the name of science, Hurley improved his fluid intelligence by sixteen percent. With humor and heart, *Smarter* chronicles the roiling field of intelligence research and delivers practical findings to sharpen the minds of children, young adults, seniors, and those with cognitive challenges.

The Good Terrorist Dec 02 2019 A hugely significant political novel for the late twentieth century from one of the outstanding writers of the modern era and winner of the Nobel Prize for Fiction.

El-Hi Textbooks & Serials in Print, 2005 Oct 31 2019

Improving the Odds Jul 09 2020 The labor market has changed dramatically in recent decades. In the 1980s an average of 2 million workers each year lost their jobs because of the increasingly global economy, rapid advances in technology, and corporate downsizing. During the same period, immigration increased and Congress passed welfare reform legislation that required many more Americans to join the workforce. Legislators have looked closely at federal job training programs in recent years, and in 1998 passed the two major acts mandating change. In Improving the Odds, experts on labor policy explore the effects of current programs on earnings and employment, recommend improvements in programs, and assess the methodologies used to measure their effectiveness. The editors offer several strategies to help policymakers design programs that fulfill the promise of keeping workers out of poverty. Contents: -Publicly Funded Training in a Changing Labour Market (Burt S. Barnow and Christopher T. King) -The Economic, Demographic, and Social Context of Future Employment and Training Programs (Frank Bennici, Steven Mangum, and Andrew M. Sum) -Welfare Employment Programs: Impacts and Cost-Effectiveness of Employment and Training Activities (Lisa Plimpton and Demetra Smith Nightingale) -The Impact of Job Training Partnership Act Programs for Adult Welfare Recipients (Jodi Nudelman) -Training Success Stories for Adults and Out-of-School Youth: A Tale of Two States (Christopher T. King, with Jerome A. Olson, Leslie O. Lawson, Charles E. Trott, and John Baj) -Employment and Training Programs for Out-of-School Youth: Past Effects and Lessons for the Future (Robert I. Lerman) -Customized Training for Employers: Training People for Jobs That Exist and Employers Who Want to Hire Them (Kellie Isbell, John Trutko, and vBurt S. Barnow) -Training Programs for Dislocated Workers (Duane E. Leigh) -Methodologies for Determining the Effectiveness of Training Programs (Daniel Friedlander, David H. Greenberg, and Philip K. Robins) -Reflections on Training Policies and Programs (Garth L. Mangum) -Strategies for Improving the Odds (Burt S. Barnow and Christopher T. King).

Ad Boy Aug 10 2020 More than 450 American ad characters, industry icons, and product personalities hailing from the 1950s, '60s, and '70s pack the pages of this vibrant, vintage collection. The postwar economic boom launched a generation of charming, cheeky, and relentlessly cheerful critters and characters that found their way into our homes--and our hearts--in print, on television, and on packaging. Some took detours that reflected the times (Elsie the Cow was sent into outer space in 1958). Some were fashion victims who survived (remember hippy Hush Puppies, circa 1969?). And some are no longer with us (the Frito Bandito was finally brought to justice in 1971). These endearingly offbeat characters are as fresh and entertaining today as they were creatively inspired in decades past.
