Beneath a Ruthless Sun Mar 29 2020 NAMED A BEST BOOK OF THE YEAR BY NPR and THE WASHINGTON POST "Compelling, insightful and important, Beneath a Ruthless Sun exposes the corruption of racial bigotry and animus that shadows a community, a state and a nation. A fascinating examination of an injustice story all too familiar and still largely ignored, an engaging and essential read." --Bryan Stevenson, author of Just Mercy From the author of the Pulitzer Prize-winning bestseller Devil in the Grove, the gripping true story of a small town with a big secret. In December 1957, the wife of a Florida citrus baron is raped in her home while her husband is away. She claims a "husky Negro" did it, and the sheriff, the infamous racist Willis McCall, does not hesitate to round up a herd of suspects. But within days, McCall turns his sights on Jesse Daniels, a gentle, mentally impaired white nineteen-year-old. Soon Jesse is railroaded up to the state hospital for the insane, and locked away without trial. But crusading journalist Mabel Norris Reese cannot stop fretting over the case and its baffling outcome. Who was protecting whom, or what? She pursues the story for years, chasing down leads, hitting dead ends, winning unlikely allies. Bit by bit, the unspeakable truths behind a conspiracy that shocked a community into silence begin to surface. Beneath a Ruthless Sun tells a powerful, page-turning story rooted in the fears that rippled through the South as integration began to take hold, sparking a surge of virulent racism that savaged the vulnerable, debased the powerful, and roils our own times still.

San Bernardino County Sheriff's Department Sep 27 2022 The largest county in the continental United States has seen its share of colorful pursuits of suspects and fugitives, including the search for the last Native American in the United States to be tracked to his tragic end by a lawman's posse: "Willie Boy" at Ruby Mountain. San Bernardino County also was the setting for the shoot-outs at Baldy Mesa and Lytle Creek. Yet gunplay lore is only one aspect of the epic of the San Bernardino County Sheriff's Department. Today the department deploys nearly 5,000 salaried and volunteer employees to protect and serve its 20,186 square miles of deserts, mountains, forests, and increasingly urban areas. This original cow-county sheriff's office went through many developments that are detailed in these vintage photographs-sheriffs' administrations, equipment, investigations, and other exploits-all culled from the department's archives, private collections, the California Room of the San Bernardino Public Library, and the San Bernardino Pioneer Historical Society.

The Nature of Supreme Court Power Jul 01 2020 Few institutions in the world are credited with initiating and confounding political change on the scale of the United States Supreme Court. The Court is uniquely positioned to enhance or inhibit political reform, enshrine or dismantle social inequalities, and expand or suppress individual rights. Yet despite claims of victory from judicial activists and complaints of undemocratic lawmaking from the Court's critics, numerous studies of the Court assert that it wields little real power. This book examines the nature of Supreme Court power by identifying conditions under which the Court is successful at altering the behavior of state and private actors. Employing a series of longitudinal studies that use quantitative measures of behavior outcomes across a wide range of issue areas, it develops and supports a new theory of Supreme Court power.

Policing Las Vegas Oct 24 2019 After being established in 1905 as a railroad town, most of Las Vegas' population was made up of tough railroaders, ranchers, and miners who worked, drank, and fought hard. Sam Gay, the first police chief, as well as the first elected county sheriff, broke up the numerous scuffles by grabbing the combatants by the scruff of their necks and banging their heads together--it was the beginning of a long legacy of law and order in America's most explosive boomtown. Over the years, Las Vegas left behind its rough and tumble beginnings to become the gambling and entertainment capital of the world. Naturally, the influx of residents and visitors--and their money--brought crime. From prostitutes to street gangs, mobsters to drug dealers, robbers to cheats, Sin City has seen it all. And law-enforcement efforts have had to adapt accordingly. Policing Las Vegas follows the evolution of law enforcement in Las Vegas and Clark County from the days of night watchmen and cops who carted drunks to jail on horseback to today's acclaimed Metropolitan Police Department. The transition wasn't always smooth. There were plenty of power struggles, political battles, and rogue cops. But there were also

many acts of valor and heroism, and a number of officers made the ultimate sacrifice. This book is filled with stories about the colorful characters and events on both sides of Las Vegas law enforcement: cops and criminals, deeds and misdeeds. They're drawn from history, legend, and the personal accounts of many people who policed Las Vegas. Policing Las Vegas also contains more than 100 photographs, some of which are being made public for the first time.

Resident Deputy Sheriff Apr 22 2022 As a long-time Deputy Sheriff in Marin County, Weldon lived through some very interesting times relevant to law enforcement, participating in fighting the most vicious crimes emanating from the hottest issues of the day. His many memorable experiences, in and out of uniform, were always in the interests of keeping the peace. The book's subtitle, ". . . in Wild and Woolly West Marin; a collection of vivid vignettes," says a lot about its contents. The author's tales brim with a variety of countercultural events, and the many ways that humans succumb to evil and occasionally rise in redemption. Many revelations are devilishly humorous but all reflect the image of a conscientious man who has, fortunately for Marin County and California society, invested the major part of his life in keeping the sane balance between extremes of behavior found in the Golden State.

CONSUMER GOVERNMENT Aug 14 2021 THE MUNICIPAL BUSINESS SYSTEM VIA THE ART OF FULL DISCLOSURE
The above titled Book is intended to change the way local governments do NOT do "business". It is predicated on and dedicated to an achieved fact: There is NO compelling reason why cities, counties and government special districts cannot be run better than private businesses are alleged to operate. Local Government can be superior! Further, there is no reason for municipal services to be gutted as is being done and advocated, and/or "outsourced" for ideological and unknown undocumented "cost-saving" reasons. It is time local government defended itself against massive misinformation and lack of supporting data. Cities can, and should be "run like a business". This Book details the adaptation of corporate "line-of-business profit & loss" corporate accounting to municipal services. The MUNICIPAL BUSINESS SYSTEM, explained in detail in this Book, has provided billions of new revenues to 250+ governments. Better yet, those monies were retrieved from those improperly benefitting from tax-supported direct benefit services. Previously, influential persons and organizations were subsidized by taxes paid by everyone. By providing a highly detailed inventory of services, then full costing information for each to the public and their elected representatives, huge amounts of tax monies were repatriated. Those monies were diverted from those who should pay fees, and returned to pay for services provided to the community at large. Thus Police, Fire, EMS, parks, recreation, library, street maintenance, and agreed-to social services were resuscitated. Through the MUNICIPAL BUSINESS SYSTEM process the tax and fee-paying public is provided detailed full disclosure of revenue, cost-of-service, and quality information for the hundreds of local services provided by most cities and counties. And choice if, when, how, and quantity provided. Thus re-inventing the manner in which taxes are used and service levels defined. At last, there is a SYSTEM to utilize computerization capabilities fully to provide a rationale and reasons for not cutting municipal budgets or privatizing local services, and thus destroying local government, its protections and services. Importantly, taxes paid by all can be utilized solely to finance services benefitting ALL, not subsidizing just the few to retain special local service benefits solely for personal, corporate, or business purposes, at the expense of the community at large. The Author utilized his decades of experience and knowledge acquired in-the-trenches to develop, refine, and apply the MUNICIPAL BUSINESS SYSTEM. He now shares with others what was labored over for 40 years of development by a corps of dedicated municipal employees, and ultimately with a brilliant group of financial analysts and CPAs, who designed and implemented the detailed highly sophisticated but simply computerized MUNICIPAL BUSINESS SYSTEM. Then Ayres taught the "how" at three major universities for 15 years. The Book provides sufficient textual overview, explanation, specific illustrations, examples, and details to know and control the cost of all services throughout the entirety of local - and maybe even state - governments. Douglas W. Ayres, MPA, LLD spent eight years with the University of Chicago's National Governmental Center (PAS) conducting scores of consulting engagements around the U.S., Canada and in Venezuela. He served as Town Clerk/Assistant Town Manager of Salem, Virginia; City Manager of Melbourne, Florida (Cape Canaveral); City Treasurer/Assistant City Manager, then City Manager of Salem, Oregon. As City Manager of Inglewood, California he installed the computerized MUNICIPAL BUSINESS SYSTEM. As a USC Graduate School Professor he taught Public Finance for 15 years, and for 25 years spread the SYSTEM to 250+ local governments via consulting firms - DWA, Inc.; Management Services, Inc. (MSI); and Ayres & Ayres, Inc. On retirement, Revenue Cost Specialists (RCS) succeeded Doug, further developing the MUNICIPAL BUSINESS SYSTEM and its software as specifically presented and then dissected in CONSUMER GOVERNMENT VIA THE ART OF FULL DISCLOSURE. The book can be purchased for \$17.48 at www.bookstore.trafford.com or at www.consumergovernment.com or in 8 1/2 x 11" spiral lay-flat for \$40 from Douglas W.
