Parable of the Forgotten Oct 04 2022 Jarvis Langton is an unborn-again Christian living on the fringe. He's not big on life and has tried to finish his own twice. Still, most mornings, he quite likes to sun himself at Sydney's Royal Botanic Gardens. One morning he notices something winking at him from a nearby bush. When he investigates he finds the dead body of his friend, Lady; a Thai transvestite. Jarvis is not someone with his thoughts lined up in any reasonable order. It takes him a while to work out Lady must have been murdered. It takes him longer to decide he's going to find her killer - but once he does, the premonition that finding Lady's murderer will bring him his own end, happens in an instant. "Parable of the Forgotten is a first class, no rest-stop, brilliant, whirly gig!" Dr She Mackenzie Hawke, University Of Sydney.

Freud on the Psychology of Ordinary Mental Life Nov 12 2020 Freud, although best known for his elucidation of the unusual in human mental life, also attempted to illuminate ordinary human experience, such as people's appreciation of humor, their capacity to become engrossed in fiction, and their disposition to a variety of emotional experiences, including the uncanny, the stirrings prompted by beauty, and their disposition to mourn. His insights into the everyday and his sense of where within it the productive questions lie reveal an incisiveness that defies both earlier and subsequent thought on his topics. This book works to expose that vision and to demonstrate its fertility for further inquiry. It reconstructs several of Freud's works on ordinary mental life, tracking his method of inquiry, in particular his search for the child within the adult, and culminating in a deployment of his tools independently of his analyses. It shows how to read Freud for his insight and generativity and how to push beyond the confines of his analyses in pursuit of new lines of exploration.

Differential Forms and Applications Jul 21 2021 An application of differential forms for the study of some local and global aspects of the differential geometry of surfaces. Differential forms are introduced in a simple way that will make them attractive to "users" of mathematics. A brief and elementary introduction to differentiable manifolds is given so that the main theorem, namely Stokes' theorem, can be presented in its natural setting. The applications consist in developing the method of moving frames expounded by E. Cartan to study the local differential geometry of immersed surfaces in R^3 as well as the intrinsic geometry of surfaces. This is then collated in the last chapter to present Chern's proof of the Gauss-Bonnet theorem for compact surfaces.

Things To Do Before Seeing A Psychiatrist Apr 17 2021 Your next appointment may be tougher than it actually is. You may be thinking you have a lot to talk about, but your doctor will likely focus on just one or two things. Before your first appointment, take some time to think about what you are feeling and what you want to write down and discuss with your doctor or therapist. You will want to write down and discuss how your life is affected by health issues. This is a helpful resource for your doctor.

Mobile Web 2.0 Feb 25 2022 From basic concepts to research grade material, Mobile Web 2.0:
Developing and Delivering Services to Mobile Devices provides complete and up-to-date coverage of
the range of technical topics related to Mobile Web 2.0. It brings together the work of 51 pioneering
experts from around the world who identify the major challenges in Mobile Web 2.0 applications and
provide authoritative insight into many of their own innovations and advances in the field. To help you
address contemporary challenges, the text details a conceptual framework that provides modeling
facilities for context-aware, multi-channel Web applications. It compares various platforms for
developing mobile services—from the developer and user perspectives—and explains how to use high-
level modeling constructs to drive the application development process through automatic code
generation. Proposes an expanded model of mobile application context Explores mobile social software
as an Information and Communications Technology (ICT) Discusses the effect of context on mobile
usability Through empirical study, the book tests a number of hypotheses on the use of software
implementation technology and location context in mobile applications. It introduces Reusable End-
User Customization (REUC)—a technique that allows users to adapt the layout of Web pages and
automatically reapplies those preferences on subsequent visits. It also investigates the need for non-
visual feedback with long system response times, particularly when downloading Web pages to mobile
devices.

Little Broken Things Aug 22 2021 “If you liked Big Little Lies, you’ ll want to crack open [Little Broken
Things].” –Southern Living An unforgettable and moving novel about an affluent suburban family
whose carefully constructed fa ç ade crumbles with the unexpected arrival of an endangered young girl. I
have something for you. When Quinn Cruz receives that cryptic text message from her older sister
Nora, she doesn’ t think much of it. They haven’ t seen each other in nearly a year and their relationship
consists mostly of infrequent phone calls and the occasional email. But when a haunted-looking Nora
shows up just hours later, a chain reaction is set into motion that will change both of their lives forever.
Nora’ s “something” is more shocking than Quinn could have ever imagined: a little girl, cowering and
wide-eyed. Nora hands her over to Quinn with instructions to keep her safe and disappears, leaving

Quinn as the unlikely caretaker of a girl introduced simply as Lucy. "Steeped in menace...a race-to-the-finish family drama" (People), *Little Broken Things* explores life and death, family and freedom, and the lengths one woman will go to protect the ones she loves.

Fallen Jan 03 2020 Their prot é g é e burned the world alive. Literally. Now, this immortal duo will have to piece it back together.... or forever face the consequences. Every 500 years, a Flama is born to cleanse the world through the gates of Heaven, or purge it of evil through Hell itself. That choice was made six months ago. Now, humanity wavers on its last hope... Dante's angelic superiors have a few choice words to say about his handling of the phoenix shifter in his charge. Rather, his ex-charge, considering Katya has well and truly disappeared. And while he's happy to be back in the Silver City, his mind won't stop spinning. Nor can he stop himself from asking questions the archangels have no wish to answer. Daymun's back in Hell - and bored out of his mind. Things he used to enjoy have now become tedious, and he finds himself unable to get Katya out of his mind. He needs answers, and if he has to turn the world upside down to find them... Well, he is a demon, after all. With the last of humanity on the threshold of extinction, this unlikely duo will find themselves dragged into a mess they have no hope of untangling. Despite their opposite natures, will they join forces to ensure there's a world left standing...and for them to live in? **FALLEN** is the first novel in a new urban fantasy series set in the same universe as **BLAZING ASHES**. Join in on the supernatural action as angels and demons clash in an ultimate battle. Disclaimer: contains violence, is not reverse harem nor paranormal romance. Part of an ongoing series.

Meteorological and Air Quality Models for Urban Areas Mar 17 2021 This book for the first time gives an overall view of the current situation in urbanization of meteorological and air quality models around the world. It discusses and makes recommendations on the best practice and strategy for urbanization of different types of meteorological and air quality models. Based on the selected presentations given at the COST728 workshop, the contributions are arranged in four parts: urban morphology and databases; parameterizations of urban canopy; strategy for urbanization of different types of models; and evaluation and city case studies / field studies. The chapters treat either dynamic (on wind and turbulent) and thermal effects (on temperature and energy in general). The final chapter of this volume summarizes the discussion and conclusions from the four main topics and provides recommendations and future requirements. This monograph is oriented towards numerical weather prediction and air quality modelling communities.

Through My Eyes Sep 10 2020 Ellie grew up on a dirt farm in Ontario with only brothers, no sisters. She had five children by the time she was twenty one and a drunken husband who she ran away from. She took her children west as far as the road would go, and went from waiting tables, to slinging drinks, then on to nursing. Eventually driving trucks for better money. Her children now numbered seven. Men were her downfall, most of them wanted her children more than her. With trucking she was in a man's world in a time when it was not acceptable, but with perseverance and just plain bull headedness she made her mark. Finding the pit falls and how she came over them, and still kept her seven children together under one roof on her own.

The Complete Family Guide to Schizophrenia Dec 26 2021 Will the person you love ever get better? Chances are you've grappled with the question. With care and support from their families, people with schizophrenia can and do make vast improvements. Noted therapists Kim Mueser and Susan Gingerich deepen your understanding of the illness and cover a wide range of effective treatments. Based on decades of research and experience, they offer pragmatic suggestions for dealing with depression, psychosis, and other symptoms. They show you how to prioritize needs, resolve everyday problems, and encourage your loved one to set life goals. Plus, individual sections highlight special issues for parents, children, siblings, and partners. Whether you're facing schizophrenia for the first time or you've dealt with its impact for years, you'll discover innovative ways to handle challenges that arise over the course of treatment, from reducing the chances of relapse to making friends and finding work. Recovery isn't an endpoint--it's a lifelong journey. With love, hope, and realistic optimism, striving for it can lead to a richer, more rewarding life for your entire family. Winner, NAMI/Ken Book Award

Fundamentals of Neurophysiology Jul 09 2020 The English edition of this book has been prepared from the third German edition published in December 1974. The first two German editions, published in 1971 and 1972, respectively, were very well received in Germany. We hope that this English version will enjoy a similar popularity by students wishing to understand the essential concepts relevant to the fascinating field of neurophysiology. The evolution of this book has been unique. The first edition was based on a series of lectures presented for many years to first-year physiology students at the Universities of Heidelberg and Mannheim. These lectures were converted into a series of 38 programmed texts, and after extensive testing, published as a programmed textbook of neurophysiology (Neurophysiologie programmiert, Springer-Verlag Heidelberg, 1971). Thereafter the present text was written and thoroughly brought up to date. Throughout this period all of the authors were members of the Department of Physiology in Heidelberg allowing for maximum cooperation at all stages of this endeavor. With regard to the English edition, I wish to express my appreciation to Mr. Derek Jordan and Mrs. Inge Jordan for translating this book, and to my colleagues Dr. Mark Rowe and Dr. Dean O. Smith for their valuable comments and suggestions on the English manuscript. I express my grateful thanks to the publishers, both in Heidelberg and New York, for their unfailing courtesy and for their extraordinary efficiency.

Fall on Me May 07 2020 A secret-something that was never supposed to be revealed but was. A secret that was exposed in plain sight for years yet hidden in everyone's conscious. A secret that questioned the values of life. A secret that made a man go crazy and ruin a boy's life. That is all it was, just a secret. Something that took emotion, pain, and loss to uncover. Something that would change a family's life forever. A dirty little secret, that could never stay hidden.

Public Health Foundations Feb 13 2021 Foundations of Public Health is a concise yet comprehensive text that offers an excellent and engaging introduction to the field of public health. This important resource is an up-to-date introduction to the core concepts and the practices of public health. Ancient Greek Beliefs Jul 01 2022 Ancient Greek Beliefs explores the mysteries of the ancient myths and religious beliefs of a great people. The text is divided into three sections, Greek mythology, the ancient Greeks, and conclusions. A brief history and lengthy glossary are included. The book is designed as a basic text for the introduction to ancient Greek mythology and beliefs, and the text muses about the religious lessons we might learn from them. It contains abridged stories of Greek mythology, including the extant Greek plays, and considers portions of the works of the great writers, including Aeschylus, Euripides Hesiod, Homer, Plato, and Sophocles. It opens a comprehensive window into the lives of these great ancient people.

Marketing in the Round Nov 05 2022 Drive more value from all your marketing and communications channels--together! Demolish your silos and sync all your messaging, strategies, and tactics (really!). Optimize every medium and platform, from iPad and Facebook to TV and direct. This book is a must-read for every senior marketing, communications, and PR decision-maker. It's not about social media. Or new (or old) media. It's about results--and there's only one way to get results. You must finally bite the bullet, tear down your silos, and integrate all your marketing and communications. That's how you choose the best platforms and messages for each customer. That's how you make research and metrics work. That's how you overcome today's insane levels of complexity and clutter. You're thinking: Oh, that's all I need to do? "Just" integrate my whole organization? Are you nuts? No. We're not. It can be done. This book's authors have done it. They've shown others how to do it. And now they're going to show you. Step by step. Strategy. Tactics. Research. Metrics. Culture. Social. Mobile. Direct. Broadcast. Print. All of it. With you, the marketing/communications decision-maker, right at the center...right where you belong! Even now, organizational silos prevent most companies from conversing coherently with customers, delivering the right targeted messages, and building real synergies across all their marketing and communications programs. Now, Gini Dietrich and Geoff Livingston show how to finally break down those silos, bridging traditional and newer disciplines to drive more value from all of them. You'll learn how to create a flexible marketing hub with integrated spokes including sales, PR, advertising, customer service, HR, social media, and the executive team. Then, you'll learn how to use your hub to speak cohesively with each customer through the tools and platforms that deliver the best results at the lowest cost. Dietrich and Livingston guide you through hands-on strategic planning, illustrating key points with real case studies and offering practical exercises for applying their principles. You'll learn how to perform baseline analyses of media from iPad apps to radio, optimize resource allocation, change culture to overcome siloed behavior, use measurement to clear away obstacles, and gain more value from every marketing investment you make. Pull it all together--finally! How to successfully integrate your tactics, tools, messages, and teams Better goals, better results: beyond "SMART" to "SMARTER" Specific, measurable, attainable, relevant, time-bound, evaluate, and reevaluate Better listening: stakeholders, customers, and research that works How to make sure you hear what really matters Four powerful ways to market in the round When to go direct, come from above, use the groundswell, or execute flanking maneuvers

Locating Right to the City in the Global South Mar 29 2022 Drawing from scholars with extensive fieldwork experience, this volume covers sixteen cities in fourteen countries across a belt stretching from Latin America, to Africa and the Middle East, and into Asia. Central to what binds these cities are deeply rooted, complex, and dynamic processes of social and spatial division that are being actively reproduced. These cities are not so much fracturing as they are being divided by governance practices informed by local histories and political contestation, and refracted through or infused by market based approaches to urban development. Through a close examination of these practices and resistance to them, this volume provides perspectives on neoliberalism and right to the city that advance our understanding of urbanism in the Global South.
