Forward the Foundation Sep 02 2022 For more than forty years, Isaac Asimov thrilled millions of readers with his bestselling Foundation series, a spellbinding tale of the future that spans thousands of years and dozens of worlds. Completed just weeks before his death in April 1992, Forward the Foundation is the seventh and concluding volume of this masterwork, which was awarded a Hugo for the 'Best All-Time Science Fiction Series'. In the earlier Foundation novels, Hari Seldon, the guiding genius of the Foundation, was a figure of history. By going back to the great mathematician's life, in Forward the Foundation, Asimov fills in the remaining gaps in his epic story. Asimov acknowledged that he always regarded Seldon as his alter ego, and this novel is all the more poignant for the fact that he himself died only weeks after writing about Seldon's death. A resounding tour de force, Forward the Foundation offers the dramatic climax to the Foundation series, and perhaps the greatest moment in science fiction to date.

Second Foundation Aug 21 2021 The third novel in Isaac Asimov's classic science-fiction masterpiece, the Foundation series THE EPIC SAGA THAT INSPIRED THE APPLE TV+ SERIES FOUNDATION The Foundation lies in ruins—destroyed by a mutant mind bent on humanity's annihilation. But it's rumored that there's a Second Foundation hidden somewhere at the end of the Galaxy, established as insurance to preserve the knowledge of mankind. Now a desperate race has begun between the survivors of the First Foundation and an alien entity to find this last flicker of humanity's shining past—and future hope. Yet the key to it all might be a fourteen-year-old girl burdened with a terrible secret. Is she the Foundation's savior—or its deadliest enemy? Unforgettable, thought-provoking, and riveting, Second Foundation is a stunning novel of adventure and ideas writ huge across the Galaxy—a powerful tale of humankind's struggle to preserve the fragile light of wisdom against the threat of its own dark barbarism.

Foundation and Earth Jun 18 2021 The epic story of the Foundation is one of the great classics of science fiction by the Grand Master of the genre. Isaac Asimov's legendary saga, winner of the Hugo Award for Best All-Time Novel Series, has enthralled generations of readers - and continues to amaze. All records of Earth have been removed systematically from the libraries of Foundation worlds. Now Councilman Golan Trevize and Professor Janov Pelorat traverse the galaxy in search of humanity's ancestral planet. On worlds beyond the Foundation's influence, superstition and taboo shroud the subject of their quest. To name Earth is to utter an obscenity. Fortunately, the space travellers find allies - and Pelorat finds a lover named Bliss - among the telepaths of the planet Gaia. As they near their destination, Bliss picks up thought waves of intelligent beings. What she cannot tell is whether or not those beings are human.

Asimov's Galaxy Apr 16 2021 Discusses components of science-fiction writing, including satire, irony, symbolism, and fantasy, the relationship between science and science fiction, and the author's own work in this genre

I. Asimov Jan 14 2021 Arguably the greatest science fiction writer who ever lived, Isaac Asimov also possessed one of the most brilliant and original minds of our time. His accessible style and far-reaching interests in subjects ranging from science to humor to history earned him the nickname "the Great Explainer." I. Asimov is his personal story—vivid, open, and honest—as only Asimov himself could tell it. Here is the story of the paradoxical genius who wrote of travel to the stars yet refused to fly in airplanes; who imagined alien universes and vast galactic civilizations while staying home to write; who compulsively authored more than 470 books yet still found the time to share his ideas with some of the great minds of our century. Here are his wide-ranging thoughts and sharp-eyed observations on everything from religion to politics, love and divorce, friendship and Hollywood, fame and mortality. Here, too, is a riveting behind-the-scenes look at the varied personalities—Campbell, Ellison, Heinlein, Clarke, del Rey, Silverberg, and others—who along with Asimov helped shape science fiction. As unique and irreplaceable as the man himself, I. Asimov is the candid memoir of an incomparable talent who entertained readers for nearly half a century and whose work will surely endure into the future he so vividly envisioned.

The Naked Sun Aug 09 2020 A millennium into the future, two advancements have altered the course of human history: the colonization of the Galaxy and the creation of the positronic brain. On the beautiful Outer World planet of Solaria, a handful of human colonists lead a hermit-like existence, their every need attended to by their faithful robot servants. To this strange and provocative planet comes Detective Elijah Baley, sent from the streets of New York with his positronic partner, the robot R. Daneel Olivaw, to solve an incredible murder that has rocked Solaria to its foundations. The victim had been so reclusive that he appeared to his associates only through holographic projection. Yet someone had gotten close enough to bludgeon him to death while robots looked on. Now Baley and Olivaw are faced with two clear impossibilities: Either the Solarian was killed by one of his robots—unthinkable under the laws of Robotics—or he was killed by the woman who loved him so much that she never came into his presence!
