Leading Digital Nov 09 2020 Become a Digital Master—No Matter What Business You're In If you think the phrase "going digital" is only relevant for industries like tech, media, and entertainment—think again. In fact, mobile, analytics, social media, sensors, and cloud computing have already fundamentally changed the entire business landscape as we know it—including your industry. The problem is that most accounts of digital in business focus on Silicon Valley stars and tech start-ups. But what about the other 90-plus percent of the economy? In *Leading Digital*, authors George Westerman, Didier Bonnet, and Andrew McAfee highlight how large companies in traditional industries—from finance to manufacturing to pharmaceuticals—are using digital to gain strategic advantage. They illuminate the principles and practices that lead to successful digital transformation. Based on a study of more than four hundred global firms, including Asian Paints, Burberry, Caesars Entertainment, Codelco, Lloyds Banking Group, Nike, and Pernod Ricard, the book shows what it takes to become a Digital Master. It explains successful transformation in a clear, two-part framework: where to invest in digital capabilities, and how to lead the transformation. Within these parts, you'll learn: • How to engage better with your customers • How to digitally enhance operations • How to create a digital vision • How to govern your digital activities The book also includes an extensive step-by-step transformation playbook for leaders to follow. *Leading Digital* is the must-have guide to help your organization survive and thrive in the new, digitally powered, global economy.

Trusted Leader Feb 10 2021 Without trust, people and businesses fail. *Trusted Leader* provides a framework for building trust so that you and your organizations can perform at your best. "A lack of trust is your biggest expense," says Wall Street Journal bestselling author David Horsager. Without trust, transactions cannot occur. Without trust, influence is destroyed. Without trust, leaders lose their people. Trust can be either your most vulnerable weakness or your greatest asset. Horsager introduces readers to his Eight Pillars of Trust through the journey of a senior leader who thought success was certain. Follow CEO Ethan Parker as he discovers the power of trust and how to apply it amid the complexities of leadership, change, and culture transformation. The Eight Pillars of Trust (Clarity, Compassion, Character, Competency, Commitment, Connection, Contribution, and Consistency) are based on Horsager's original research and extensive experience working with Fortune 500 companies and top government agencies around the globe. In addition to the business parable, this book is rich in practical advice for implementing each of the Eight Pillars. You will learn strategies to increase alignment, overcome attrition, and get absolutely clear on executing your top priorities. Horsager offers a road map for how to become the most trusted expert in your industry.

The UK Pesticide Guide 2020 Jul 26 2019 By far the biggest change to *The UK Pesticide Guide* in 2020 is the loss of a number of active ingredients that have been fundamental to many crop protection programmes. The final use-up of chlorothalonil formulations; propiconazole, fenpropimorph, chloridazon and diquat occurs in 2020 but there are also a few exciting new additions. Aclonifen is a new residual herbicide for use in potatoes that already has a number of EAMUs for use in minor crops. BASF is launching its new triazole, mefentrifluconazole, which promises to restore full triazole activity, at least initially. On the insecticide front the new active ingredient from Corteva agriscience, sulfoxaflor, is now listed for use in Cucurbitae and ornamentals under full protection for control of aphids and whitefly.
