These technologies detect a learner's presence in a particular place, the learner's history in that place or in relation to other people and objects nearby, and adapt learning experiences accordingly, enabling and encouraging learners to use personal and social technologies to capture aspects of the environment as learning resources, and to share their reactions to them.

Khaki Town Mar 28 2022 'It seems to have happened overnight, ' Val thought as she pulled the beers. 'We've become a khaki town.' It's March 1942. Singapore has fallen. Darwin has been bombed. Australia is on the brink of being invaded by the Imperial Japanese Forces. And Val Callahan, publican of The Brown's Hotel in Townsville, could not be happier as she contemplates the fortune she's making from lonely, thirsty soldiers. Overnight the small Queensland city is transformed into the transport hub for 70,000 American and Australian soldiers destined for combat in the South Pacific. Barbed wire and gun emplacements cover the beaches. Historic buildings are commandeered. And the dance halls are in full swing with jazz, jitterbug and jive. The Australian troops begrudge the confident, well-fed 'Yanks' who have taken over their town and their women. And there's growing conflict, too, within the American ranks. Because black GIs are enjoying the absence of segregation and the white GIs don't like it. Then one night a massive street fight leaves a black soldier lying dead on the pavement, and the situation explodes into violent confrontation.

Unravelling Capitalism Jun 26 2019 Karl Marx was the greatest critic of capitalism, yet his ideas are widely dismissed or misunderstood. But understanding Marx is indispensable for anyone who wants to grasp why capitalism is a system of exploitation, instability and repeated crises. Joseph Choonara here introduces readers to some crucial Marxist approaches - as developed above all in the three volumes of Capital. He also outlines how this can be applied to capitalism as it has developed since the 19th century.

The Manley Memoirs Feb 12 2021 "From stationmaster's daughter to wife of one of Jamaica's most charismatic prime ministers, Beverley Manley's life has been an odyssey." "As a young girl, starved of her mother's love because she was darker than her siblings and forced to do housework while her sisters relaxed, Beverley was a modern-day Cinderella. Her adolescent years were painful, having to carry the burden of her self-loathing, the feeling of inferiority within her own family and the constant echo of her mother's voice telling her she was good for nothing. However, Beverley defied her mother's prophecy, and triumphed over her 'ordinary' beginnings first as a model in Jamaica and later becoming a household name on radio, television and on the local stage. It was her path at the then Jamaica Broadcasting Corporation (JBC) that would lead her directly to Michael Manley and ultimately to Jamaica House. Marriage to Michael also led to her political awakening; not content with being the docile wife, Beverley assumed an activist role in the governing People's National Party (PNP), becoming embroiled in the ideological politics of the 1970s that would eventually lead to her estrangement from Michael and the painful self-assessment that came with his affairs and her own. The resulting termination of their marriage forced on her a self-imposed exile in the US where she took refuge from

the ire of the Jamaican elite for daring to walk out on one of their own. But Beverley was to redeem herself and earn new respect as a broadcaster, commentator and incisive interviewer on the immensely popular and innovative Breakfast Club radio show." "Now older and much wiser, Beverley tells it like it is in this intriguing and revealing memoir. It is a rags to riches story - almost; a story of triumph and loss; of rising again and finally of redemption."--BOOK JACKET.

Construction Supply Chain Economics Feb 24 2022 This is the first comprehensive investigation of the industrial sourcing and procurement practices throughout sixty-eight construction industry supply channels across seven major commodity sectors at all levels. London presents real-world case studies to combine theory and practice to describe the economic structural and behavioural characteristics of sectors integral to the construction industry performance. Construction Supply Chain Economics details 'everyday' experiences and procurement decisions made by people in firms in the industry related to projects as they seek out other firms to work with during the tendering stage. London creates a language that enables us to classify and understand behaviour and recognise the impact of our decisions on firms and projects within the industry. Construction Supply Chain Economics introduces a new model for mapping the construction sector of particular interest to construction management and economic researchers and to procurement decision makers, including policymakers and clients, as well as industry practitioners, such as contractors, consultants and materials suppliers.

A Bigger Picture Sep 21 2021 In *A Bigger Picture*, the bestselling political memoir of 2020, Malcolm Turnbull, Australia's 29th prime minister, tells the remarkable story of his life. Now in paperback, this edition is updated with an all-new foreword by the author that sheds light on the huge political and cultural changes happening today. When Malcolm Turnbull took over the nation's top job there was a sense of excitement in Australia. Sky-high opinion polls followed as the political outsider with a successful business, legal and media career took charge. The infighting that had dogged politics for the best part of a decade looked to be over. But a right-wing insurgency brutally cut down Turnbull's time in office after three years, leaving many Australians asking, 'Why?' Exceptionally candid and compelling, *A Bigger Picture* is the definitive narrative of Malcolm Turnbull's prime ministership. He describes how he legalised same-sex marriage, established Snowy Hydro 2.0, stood up to Donald Trump, and many more achievements - remarkable in their pace and significance, and delivered in the teeth of so much opposition. But it's far more than just politics. Turnbull's life has been filled with colourful characters and controversies, success and failure. From his early years in Sydney, growing up with a single father, to defending 'Spycatcher' Peter Wright against the UK government; the years representing Kerry Packer, leading the Republican Movement and making millions in business; and finally toppling Tony Abbott to become prime minister of Australia. For the first time he tells it all - in his own

words. With revelatory insights on the workings of Canberra and the contentious events of Turnbull's life, *A Bigger Picture* explores the strengths and vulnerabilities of one of Australia's best-known and most dynamic business and political leaders. Lyrically written in highly readable and entertaining prose, this is a genuine page-turner that's not just for political junkies.
