**Manual of Tests and Criteria**

May 07 2020 The Manual of

Tests and Criteria contains

criteria, test methods and

procedures to be used for

classification of dangerous

goods according to the

provisions of Parts 2 and 3 of

the United Nations

Recommendations on the

Transport of Dangerous Goods,

Model Regulations, as well as

of chemicals presenting

physical hazards according to

the Globally Harmonized

System of Classification and

Labelling of Chemicals (GHS).

As a consequence, it

supplements also national or

international regulations which

are derived from the United

Nations Recommendations on

the Transport of Dangerous

Goods or the GHS. At its ninth

session (7 December 2018), the

Committee adopted a set of

amendments to the sixth

revised edition of the Manual

as amended by Amendment 1.

This seventh revised edition

takes account of these

amendments. In addition,

noting that the work to

facilitate the use of the Manual

in the context of the GHS had

been completed, the

Committee considered that the

reference to the

"Recommendations on the

Transport of Dangerous Goods"

in the title of the Manual was

no longer appropriate, and

decided that from now on, the

Manual should be entitled

"Manual of Tests and Criteria".
