**Building a Special with Ant Anstead Master Mechanic** Mar 14 2021 Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.

**Beyond Repair?** Dec 31 2019 Winner of the 2021 Raphael Lemkin Book Award from the Institute for the Study of Genocide? Honorable Mention, 2020 CALACS Book Prize? Beyond Repair? explores Mayan women's agency in the search for redress for harm suffered during the genocidal violence perpetrated by the Guatemalan state in the early 1980s at the height of the thirty-six-year armed conflict. The book draws on eight years of feminist participatory action research conducted with fifty-four Q'eqchi', Kaqchikel, Chuj, and Mam women who are seeking truth, justice, and reparation for the violence they experienced during the war, and the women's rights activists, lawyers, psychologists, Mayan rights activists, and researchers who have accompanied them as intermediaries for over a decade. Alison Crosby and M. Brinton Lykes use the concept of "protagonism" to deconstruct dominant psychological discursive constructions of women as "victims," "survivors," "selves," "individuals," and/or "subjects." They argue that at different moments Mayan women have been actively engaged as protagonists in

constructivist and discursive performances through which they have narrated new, mobile meanings of "Mayan woman," repositioning themselves at the interstices of multiple communities and in their pursuit of redress for harm suffered.
