The Trial of Julian Assange Nov 09 2020 The shocking story of the legal persecution of Wikileaks founder Julian Assange and the dangerous implications for the whistleblowers of the future. In July 2010, Wikileaks published Cablegate, one of the biggest leaks in the history of the US military, including evidence for war crimes and torture. In the aftermath Julian Assange, the founder and spokesman of Wikileaks, found himself at the center of a media storm, accused of hacking and later sexual assault. He spent the next seven years in asylum in the Ecuadorian embassy in London, fearful that he would be extradited to Sweden to face the accusations of assault and then sent to US. In 2019, Assange was handed over to the British police and, on the same day, the U.S. demanded his extradition. They threatened him with up to 175 years in prison for alleged espionage and computer fraud. At this point, Nils Melzer, UN Special Rapporteur on Torture, started his investigation into how the US and UK governments were working together to ensure a conviction. His findings are explosive, revealing that Assange has faced grave and systematic due process violations, judicial bias, collusion and manipulated evidence. He has been the victim of constant surveillance, defamation and threats. Melzer also gathered together consolidated medical evidence that proves that Assange has suffered prolonged psychological torture. Melzer's compelling investigation puts the UK and US state into the dock, showing how, through secrecy, impunity and, crucially, public indifference, unchecked power reveals a deeply undemocratic system. Furthermore, the Assange case sets a dangerous precedent: once telling the truth becomes a crime, censorship and tyranny will inevitably follow. The Trial of Julian Assange is told in three parts: the first explores Nils Melzer's own story about how he became involved in the case and why Assange's case falls under his mandate as the Special Rapporteur on Torture. The second section returns to 2010 when Wikileaks released the largest leak in the history of the U.S. military, exposing war crimes and corruption, and Nils makes the case that Swedish authorities manipulated charges against Assange to force his extradition to the US and publicly discredit him. In the third section, the author returns to 2019 and picks up the case as Ecuador kicks Assange out of the embassy and lays out the case as it currently stands, as well as the stakes involved for other potential whistleblowers trying to serve the public interest.

India Briefing Oct 09 2020 Since 2001, India has gained new attention as an emerging world power with a rapidly growing economy, a world-class science and technology sector, and a huge English-speaking labor pool. After a period of escalating tension with neighbor Pakistan, wide-ranging peace talks are underway. Within India, there is an unprecedented mood of optimism about the future. At the same time, the nation wrestles with difficult questions about the place of secularism in society, the role it sees for itself globally and within Asia, and the reality that millions of Indians still live at the subsistence level. This volume of India Briefing examines India's changing fortunes through chapters that cover the economy; the twists and turns of domestic politics; labor in the largely informal sector; the cultural roots of Hindu nationalism; the foreign relations rollercoaster; the business of Bollywood; and a special chapter on the range of new resources about India available on the web.

Focusing on diverse partnerships as the framework for public health, the book discusses: The need for a shift from an individual to a population-based approach in practice, research, policy, and community engagement. The status of the governmental public health infrastructure and what needs to be improved, including its interface with the health care delivery system. The roles nongovernment actors, such as academia, business, local communities and the media can play in creating a healthy nation. The Work of the Future Sep 07 2020 Why the United States lags behind other industrialized countries in sharing the benefits of innovation with workers and how we can remedy the problem. The United States has too many low-quality, low-wage jobs. Every country has its share, but those in the United States are especially poorly paid and often without benefits. Meanwhile, overall productivity increases steadily and new technology has transformed large parts of the economy, enhancing the skills and paychecks of higher paid knowledge workers. What's wrong with this picture? Why have so many workers benefited so little from decades of growth? The Work of the Future shows that technology is neither the problem nor the solution. We can build better jobs if we create institutions that leverage technological innovation and also support workers through long cycles of technological transformation. Building on findings from the multiyear MIT Task Force on the Work of the Future, the book argues that we must foster institutional innovations that complement technological change. Skills programs that emphasize work-based and hybrid learning (in person and online), for example, empower workers to become and remain productive in a continuously evolving workplace. Industries fueled by new technology that augments workers can supply good jobs, and federal investment in R&D can help make these industries worker-friendly. We must act to ensure that the labor market of the future offers benefits, opportunity, and a measure of economic security to all.

Communicating With Intelligence Aug 26 2019 Since September 11, 2001, colleges and universities nationwide have expanded their curricula to include intelligence and national security studies, many offering degrees in the subjects. Curiously, no book exists for classroom use in teaching the important skills needed by these professionals to ensure their products/papers/reports are properly written or briefed. Communicating with Intelligence fills that gap and is aimed primarily at faculty and students pursuing studies in intelligence, national security, homeland defense, or homeland defense; but it also has considerable value for working intelligence professionals who simply wish to hone their "rusty" writing or briefing skills.

HC 881 - Press Briefing of the FCA's Business Plan for 2014/15 Oct 28 2019 On the evening of 27 March 2014, the Daily Telegraph published an article on its website describing a forthcoming thematic review by the Financial Conduct Authority (FCA) into the life insurance market. The same story appeared in the print edition of the Telegraph the following day. The story, based on an advance briefing given by the FCA to the Telegraph earlier that week, gave a misleading impression of the scope of the life insurance review, and was published before the FCA had made any official announcement of its own. When the markets opened on 28 March, the share prices of several leading life insurers began to fall heavily. Only when the FCA published a clarifying statement about the scope of the review - several hours later that day - did share prices begin to recover. On the day following the publication of the Telegraph article, the Chairman of this Committee called for a "full and transparent explanation about how such an apparently serious mistake came to be made by our financial services watchdog--the body appointed by Parliament to enforce high standards of conduct". Simon Davis, Partner at Clifford Chance LLP, was subsequently appointed to conduct an investigation, and reported his findings in December 2014. The Committee records its thanks to Mr Davis for undertaking this work and for the evidence he gave to it.

Enemy of the People Aug 07 2020 Shortly after assuming office in January 2017, President Donald Trump accused the press of being an "enemy of the American people." Attacks on the media had been a hallmark of Trump's presidential campaign, but this charge marked a dramatic turning point: language like this ventured into dangerous territory. Twentieth-century dictators—notably, Stalin, Hitler, and Mao—had all denounced their critics, especially the press, as "enemies of the people." Their goal was to delegitimize the work of the press as "fake news" and create confusion in the public mind about what's real and what isn't: what can be trusted and what can't be. That, it seems, is also Trump's goal. In Enemy of the People, Marvin Kalb, an award-winning American journalist with more than six decades of experience both as a journalist and media observer, writes with passion about why we should fear for the future of American democracy because of the unrelenting attacks by the Trump administration on the press. As his new book shows, the press has been a bulwark in the defense of democracy. Kalb writes about Edward R. Murrow's courageous reporting on Senator Joseph McCarthy's "red scare" in the early 1950s, which led to McCarthy's demise. He reminds us of Bob Woodward and Carl Bernstein's reporting in the early 1970s that led to President Richard Nixon's resignation. Today, because of revolutionary changes in journalism, no Murrow is ready at the battlements. Journalism has been severely weakened. Yet, without a virile, strong press, democracy is in peril. Kalb's book is a frightening indictment of President Trump's efforts to delegitimize the American press—and put the future of our democracy in question.

Not to be able to communicate with them, to hear them learn, grow, and express themselves verbally. How fortunate, how blessed I am. This overwhelmed me. I can talk to my children, I can respond to their needs and comfort them when they tell me they are unwell. I can tell them stories and hear them tell theirs. Kate Winslet Imagine what it would be like not to be able to communicate with those we love. For many individuals living with nonverbal autism and their families, this is their everyday reality. The Golden Hat is an intimate response to this reality shared by Kate Winslet, Margret Ericsson, and her son Keli, who has nonverbal autism. Kate and Margret's stories, their personal email correspondence, and Keli's poetry give us a profound insight into the world of those living with autism. Kate has shared this story with some of the world's most famous people, posing the question: "What is important to you to express?" The Briefing Apr 26 2022 NOW A NATIONAL BESTSELLER! Wall Street Journal Bestseller USA Today Bestseller Publisher's Weekly Bestseller Conservative Book Club Bestseller "One of the best reads of 2018." — Sean Hannity "The book is well worth your time." — Megyn Kelly "A story told with both heart and knowledge. Really good, go get it!" — President Donald J. Trump No job is more of a pressure cooker than being a White House press secretary...especially in this White House. For more than two decades, Sean Spicer had been a respected political insider, working as a campaign and communications strategist. But in December 2016, he got the call of a lifetime. President-elect Donald J. Trump had chosen him to be the White House press secretary. And life hadn't been the same since. When he accepted the job, Spicer was far from a household name. But then he walked into the bright lights of the briefing room, and the cameras started rolling. His every word was scrutinized. Every movement was parodied. Every detail became a meme. And that's just the public side. Behind the scenes, things were almost as difficult in an administration plagued by leaks that frustrated and angered both Spicer and the president. Not to mention the extraordinary pressures on Spicer's family and his faith. Now, in his provocative and enlightening political memoir, The Briefing, Spicer reveals the truth behind some of the biggest news stories of our time, and he offers a glimpse into what it's like to stand at the press secretary's podium—and how he got there. The Briefing is the first insider account written by someone who worked on the Trump campaign, with the Trump transition team, and in the Trump White House—and has seen Donald Trump rallying voters, building an administration, and making crucial policy decisions. Spicer's riveting and personal account makes The Briefing the must-read political memoir of the year.

This research-driven, strategy-based media writing textbook digs deeply into how media professionals think and write in journalism, public relations, advertising, and other forms of strategic communication. Authors Scott A. Kuehn and Andrew Lingwall have created two comprehensive writing models to help students overcome their problems in finding and developing story topics by giving them “starting points” to begin writing. The Professional Strategy Triangle model shows students how to think critically about the audience, the situation, and the message before starting a news story or persuasive piece and the FAJA four-point model asks students a series of questions about their story type (Fact, Analysis, Judgment, or Action) to guide them to the right angle or organizational structure for their message. Rooted in classical rhetorical methods, this step-by-step technique enables readers to strategically approach each writing task, no matter the format.
