[Africa, Its Geography, People and Products and Africa-Its Place in Modern History \(The Oxford W. E. B. Du Bois\)](#) 2021 W. E. B. Du Bois was a public intellectual, sociologist, and activist on behalf of the African American community. He profoundly shaped black political culture in the United States through his founding role in the NAACP, as well as internationally through the Pan-African movement. Du Bois's sociological and historical research on African-American communities and culture broke ground in many areas, including the history of the post-Civil War Reconstruction period. Du Bois was also a prolific author of novels, autobiographical accounts, innumerable editorials and journalistic pieces, and several works of history. Written in very accessible prose, these two booklets, originally published in 1930, allowed W. E. B. Du Bois to reach a wide audience with an interest in Africa. What is so incredible about the two Africa booklets is their lasting relevance and value to the study of Africa today. Coupling Du Bois's breadth of scholarship with his passion for the subjects, the analyses in these booklets are integral to the study of Africa. Many of his arguments foreshadowed the issues and debates regarding Africa in the twentieth century. Expertly synthesized in an introduction by Emmanuel Akyeampong, this edition of the two Africa booklets is essential for anyone interested in African history.

[The Nieh-hai Hua and Its Place in the Late Ch'ing Social Novel of Prose](#) 2020 [Mind and its Place in the World](#) 28 2022 What is mind? What is its relationship to the physical world? Is consciousness a causative agent in the physical world? With much progress being made in the neurosciences, many have thought that these questions could be answered by reducing them to questions about physical systems such as the brain. But this approach has foundered on the core problem of consciousness. Why is it that some brain processes are accompanied by conscious awareness? This anthology points out new sources and unexamined paths of consciousness research. By presenting a wide spectrum of non-reductive theories, the volume endeavours to overcome the dichotomy between dualism and monism that keeps plaguing the debate in favour of new and more differentiated positions.

[The Western Electric Company and Its Place in the Bell System](#) 10 2021 [Transport and Its Place in History](#) 31 2019 Transport and mobility history is one of the most exciting areas of historical research at the present. As its scope expands, it entices scholars working in fields as diverse as historical geography, management studies, sociology, industrial archaeology, cultural and literary studies, ethnography, and anthropology, as well as those working in various strands of historical research. Containing contributions exploring transport and mobility history after 1800, this volume of eclectic chapters shows how new subjects are explored, new sources are being encountered, considered and used, and how increasingly diverse and innovative methodological lenses are applied to both new and well-travelled subjects. From canals to Concorde, from freight to passengers, from screen to literature, the contents of this book will therefore not only demonstrate the cutting edge of research, and deliver valuable new insights into the role and position of transport and mobility in history, but it will also evidence the many and varied directions and possibilities that exist for the field's future development.

[The Dance: Its Place in Art and Life](#) 22 2022 "The Dance" by Margaret West Kinney is a book about dance as a form of art. The writing includes a chapter of explanation of the salient steps of the ballet. These steps, with superficial variations and additions, form the basis also all-natural or "character" dances that can lay claim to any consideration as interpretative art. Direct practical instruction is furnished on the subject of present-day ballroom dancing, to the extent of clear and exact directions for the performance of steps now fashionable in Europe and America. Some notable titles are: The "Schuhplatteltanz" Classic Ballet Positions Fundamental Positions of the Feet The "Tango" Development of an Arch "À La Pirouette", etc.

Knowledge and its Place in Nature **May 04 2020** Philosophers have traditionally used conceptual analysis to investigate knowledge. Hilary Kornblith argues that this is misguided: it is not the concept of knowledge that we should be investigating, but knowledge itself, a robust natural phenomenon, suitable for scientific study. Cognitive ethologists not only attribute intentional states to non-human animals, they also speak of such animals as having knowledge; and this talk of knowledge does causal and explanatory work within their theories. The account of knowledge which emerges from this literature is a version of reliabilism: knowledge is reliably produced true belief. This account of knowledge is not meant merely to provide an elucidation of an important scientific category. Rather, Kornblith argues that knowledge, in this very sense, is what philosophers have been talking about all along. Rival accounts are examined in detail and it is argued that they are inadequate to the phenomenon of knowledge (even of human knowledge). One traditional objection to this sort of naturalistic approach to epistemology is that in providing a descriptive account of the nature of important epistemic categories, it must inevitably deprive these categories of their normative force. But Kornblith argues that a proper account of epistemic normativity flows directly from the account of knowledge which is found in cognitive ethology. Knowledge may be properly understood as a real feature of the world which makes normative demands upon us. This controversial and refreshingly original book offers philosophers a new way to do epistemology.

A Place in the Country **Jul 06 2020** A Place in the Country is W. G. Sebald's meditation on the six artists and writers who shaped his creative mind—and the last of this great writer's major works to be translated into English. This edition includes more than 40 pieces of art, all originally selected by W. G. Sebald. This extraordinary collection of interlinked essays about place, memory, and creativity captures the inner worlds of five authors and one painter. In his masterly and mysterious style—part critical essay, part memoir—Sebald weaves their lives and art with his own migrations and rise in the literary world. Here are people gifted with talent and courage yet in some cases cursed by fragile and unstable natures, working in countries inhospitable or even hostile to them. Jean-Jacques Rousseau is conjured on the verge of physical and mental exhaustion, hiding from his detractors on the island of St. Pierre, where two centuries later Sebald took rooms adjacent to his. Eighteenth-century author Johann Peter Hebel is remembered for his exquisite and delicate nature writing, expressing the eternal balance of both the outside world and human emotions. Writer Gottfried Keller, best known for his 1850 novel *Green Henry*, is praised for his prescient insights into a Germany where “the gap between self-interest and the common good was growing ever wider.” Sebald compassionately re-creates the ordeals of Eduard Mörike, the nineteenth-century German poet beset by mood swings, depression, and fainting spells in an increasingly shallow society, and Robert Walser, the institutionalized author whose nearly indecipherable scrawls seemed an attempt to “duck down below the level of language and obliterate himself” (and whose physical appearance and year of death mirrored those of Sebald's grandfather). Finally, Sebald spies a cognizance of death's inevitability in painter Jan Peter Tripp's lovingly exact reproductions of life. Featuring the same kinds of suggestive and unexplained illustrations that appear in his masterworks *Austerlitz* and *The Rings of Saturn*, and translated by Sebald's colleague Jo Catling, *A Place in the Country* is Sebald's unforgettable self-portrait as seen through the experiences of others, a glimpse of his own ghosts alongside those of the men who influenced him. It is an essential addition to his stunning body of work. Praise for *A Place in the Country* “Measured, solemn, sardonic . . . hypnotic . . . [W. G. Sebald's] books, which he made out of classics, remain classics for now.”—Joshua Cohen, *The New York Times Book Review* “In Sebald's writing, everything is connected, everything webbed together by the unseen threads of history, or chance, or fate, or death. The scholarly craft of gathering scattered sources and weaving them into a coherent whole is transformed here into something beautiful and unsettling, elevated into an art of the uncanny—an art that was, in the end, Sebald's strange and inscrutable gift.”—Slate “Magnificent . . . The multiple layers surrounding each essay are seamless to the point of imperceptibility.”—*New York Daily News* “Sebald's most tender and jovial book.”—*The Nation* “Reading [A Place in the Country] is like going for a walk with a beautifully talented, deeply passionate novelist from Mars.”—*New York*

Everything in Its Place **Nov 02 2022** An inspiring and poetic story about reading, libraries, and overcoming shyness to find community. I gather the books in my arms, and give them a hug. “Welcome back,” I whisper. Nicky is a shy girl who feels most at home in the safe space of her school library, but the library closes for a week and Nicky is forced to face her social anxiety. When she meets a group of unique, diverse, inspiring women at her mother's diner—members of a women's motorcycle club—Nicky realizes that being different doesn't have to mean being alone, and that there's a place for everyone. Book lovers of all ages will find inspiration in this beautiful love letter to reading—and how words help us find empathy and connections with the world around us.

Putting Liberalism in Its Place **Oct 28 2019** In this wide-ranging interdisciplinary work, Paul W. Kahn argues that political order is founded not

on contract but on sacrifice. Because liberalism is blind to sacrifice, it is unable to explain how the modern state has brought us to both the edge of law and the edge of nuclear annihilation. We can understand this modern condition only by recognizing that any political community, even a liberal one, is bound together by faith, love, and identity. Putting Liberalism in Its Place draws on philosophy, cultural theory, American constitutional law, religious and literary studies, and political psychology to advance political theory. It makes original contributions in all these fields. Not since Charles Taylor's *The Sources of the Self* has there been such an ambitious and sweeping examination of the deep structure of the modern conception of the self. Kahn shows that only when we move beyond liberalism's categories of reason and interest to a Judeo-Christian concept of love can we comprehend the modern self. Love is the foundation of a world of objective meaning, one form of which is a political community. Arguing from these insights, Kahn offers a new reading of the liberalism/communitarian debate, a genealogy of American liberalism, an exploration of the romantic and the pornographic, a new theory of the will, and a refoundation of political theory on the possibility of sacrifice. Approaching politics from the perspective of sacrifice allows us to understand the character of twentieth-century politics, which combined progress in the rule of law with massive slaughter for the state. Equally important, this work speaks to the most important political conflicts in the world today. It explains why American response to September 11 has taken the form of war, and why, for the most part, Europeans have been reluctant to follow the Americans in their pursuit of a violent, sacrificial politics. Kahn shows us that the United States has maintained a vibrant politics of modernity, while Europe is moving into a postmodern form of the political that has turned away from the idea of sacrifice. Together with its companion volume, *Out of Eden*, *Putting Liberalism in Its Place* finally answers Clifford Geertz's call for a political theology of modernity.

The Ideology of the Book of Chronicles and Its Place in Biblical Thought Oct 10 2022 In the last several decades, interest in the Exilic and Postexilic periods of ancient Israel's history has grown, especially as this era has been recognized to be important for the formation of the Hebrew Bible. One of the scholars at the forefront of interest in this period is Sara Japhet, now Yehezkel Kaufmann Professor Emeritus in the Department of Bible at the Hebrew University of Jerusalem. This volume, which is based on Japhet's 1973 Ph.D. dissertation at the Hebrew University (published in Hebrew in 1978), was first published in English in 1989 and rapidly was recognized as a major distillation of the themes underlying the ideology of the book of Chronicles. The book of Chronicles, written at the end of the fourth century B.C.E., relates the history of Israel from its beginnings with the creation of man to the return from exile with the declaration of Cyrus. The historical and theological points of departure of the Chronicler's description are to be found in the realities of his own day. Through this historical composition, he attempts to imbue with new meaning the two components of Israel's life: the past, which through its sublimation and transformation into a norm was in danger of becoming remote and irrelevant, and the present, which is granted full legitimization by demonstrating its continuity with this past. The one is interpreted in terms of the other. Japhet's study strives to reveal the Chronicler's views and perspectives on all the major issues of Israel's history and religion, unveiling his role as a bridge between biblical and postbiblical faith. The book has been out of print for a number of years; this edition, which has been completely typeset (so that it is more readable), makes an important contribution to the growing body of literature that explores the development of Israelite religion during the time of the formation of the Hebrew Scriptures. Japhet's ground-breaking work continues to make a lasting contribution to our understanding of the historical and theological position of the Chronicler.

Everything in Its Place Nov 29 2019 From the best-selling author of *Gratitude* and *On the Move*, a final volume of essays that showcase Sacks's broad range of interests--from his passion for ferns, swimming, and horsetails, to his final case histories exploring schizophrenia, dementia, and Alzheimer's. Oliver Sacks, scientist and storyteller, is beloved by readers for his neurological case histories and his fascination and familiarity with human behavior at its most unexpected and unfamiliar. Everything in *Its Place* is a celebration of Sacks's myriad interests told with his characteristic compassion and erudition, and in his luminous prose.

Love and Its Place in Nature Jun 28 2022 "Jonathan Lear has shown us both Freud's texts and his subject matter from a new angle of vision, one that renders much recent controversy about psychoanalytic theory irrelevant. For any student of those texts this book is indispensable."--Alasdair MacIntyre "Lear makes one understand how psychoanalysis works not only on the therapist's couch but also as a condition of being alive. . . . Love and Its Place in Nature not only offers a form of spiritual nutriment for the self, it also defines that self with clear profundity that few readers will have encountered before."--Christopher Lehmann-Haupt, *New York Times* "A brief and engaging philosophical perspective on Freudian psychoanalysis. The book is simply written, but important themes are profoundly investigated. . . . An important philosophic reading of Freud."--Don Browning, *Christian Century* In this brilliant book, Jonathan Lear argues that Freud posits love as a basic force in nature, one that makes individuation--the condition for psychological health and development--possible. Love is active not just in the development of the individual but also in individual analysis and indeed in the development of psychoanalysis itself, says Lear. Expanding on philosophical conceptions of love, nature, and mind, Lear shows that love can cure because it is the force that makes us human.

Your Place in the Universe Jan 30 2020 An astrophysicist presents an in-depth yet accessible tour of the universe for lay readers, while conveying the excitement of astronomy. How is a galaxy billions of lightyears away connected to us? Is our home nothing more than a tiny speck of blue in an ocean of night? In this exciting tour of a universe far larger than we can imagine, cosmologist Paul M. Sutter emphasizes how amazing it is that we are part of such a huge, complex, and mysterious place. Through metaphors and uncomplicated language, Sutter

breathes life into the science of astrophysics, unveiling how particles, forces, and fields interplay to create the greatest of cosmic dramas. Touched with the author's characteristic breezy, conversational style--which has made him a breakout hit on venues such as The Weather Channel, the Science Channel, and his own popular Ask a Spaceman! podcast--he conveys the fun and wonder of delving deeply into the physical processes of the natural universe. He weaves together the past and future histories of our universe with grounded descriptions of essential modern-day physics as well as speculations based on the latest research in cosmology. Topics include our place in the Milky Way galaxy; the cosmic web--a vast web-like pattern in which galaxies are arranged; the origins of our universe in the big bang; the mysteries of dark matter and dark energy; how science has dramatically changed our relationship to the cosmos; conjectures about the future of reality we know it; and more. For anyone who has ever stared at the starry night sky and wondered how we humans on Earth fit into the big picture, this book is an essential roadmap.

Making a Place for Community Jul 26 2019 When pundits refer to the death of community, they are speaking of a number of social ills, which include, but are not limited to, the general increase in isolation and cynicism of our citizens, widespread concerns about declining political participation and membership in civic organizations, and periodic outbursts of small town violence. Making a Place for Community argues that this death of community is being caused by contemporary policies that, if not changed, will continue to foster the decline of community. Increased capital flow between nations is not at the root of the problem, however, increased capital flow within our nation is. Small towns shouldn't have to hope for a prison to open nearby and downtown centers shouldn't sit empty as suburban sprawl encroaches, but they do it's a result of widely agreed upon public policies.

Everything in Its Place Jun 04 2020 Every city, region and state wants to do better---or at the very least, not do worse. Places have a strong and vigorous concern with and stake in generating a stronger economic performance. This concern spans a broad spectrum of constituents and interests, including business, labor, non-profit organizations, government, and private residents. However, such decision makers mandated with the strategic management of their place receive little guidance or insight from scholars in terms of a systematic framework evaluating how to generate and sustain a competitive advantage for their place. While an entire academic field exists devoted to analyzing how firms and organizations can create and sustain a competitive advantage and ultimately a strong economic performance---the field of strategic management in business schools---no such analogous field exists which is devoted to guiding and informing decision makers mandated and concerned with the strategic management of their place. Everything in Its Place seeks to fill this intellectual void, explaining the underlying economic and social factors and the broad spectrum of policies and instruments that can actually influence and enhance economic performance in places. Several academic fields have generated a number of important theories, empirical findings, and case studies that shed considerable light on identifying and unraveling the underlying forces about what shapes this economic performance. Combined in this book with the actual experiences and instincts garnered from practitioners and policy makers, these insights are integrated together in into a coherent, inclusive framework to guide and inform thought leaders and scholars in the strategic management of places.

Putting Art (Back) in Its Place Apr 02 2020 While most Christians today view art from a distance and Christian discussions of art focus primarily on artists as lonely dreamers, this has not always been the case. In Putting Art (Back) in its Place Dr. John Skillen, an expert in medieval and Renaissance art and literature, calls for the church to come together as one body to reclaim that rich heritage where art touched the entire believing community. For quite some time, art played a vital role in the life of the community, assisting Christian community in performing actions that defined their corporate work and identity (their liturgies). Patrons commissioned artists, advisors helped to determine subject matter, and the whole church celebrated and partook in what was eventually displayed. Skillen offers readers a compelling call to foster a vibrant culture of the arts by restoring and cultivating active and respectful relationships among artists, patrons, scholars, community and the art they create. Putting Art (Back) in its Place equips laity and clergy to think historically about the vibrant role the visual arts have played--and could again play--in the life of the church and its mission.
