Elephant Don Jun 04 2020 "O'Connell, one of the leading experts on elephant communication and social behavior, offers a rare inside look at the social world of African male elephants. [This book] tracks Greg and his group of bulls as [he] tries to understand the vicissitudes of male friendship, power struggles, and play. A frequently heart-wrenching portrayal of commitment, loyalty, and affection between individuals yearning for companionship, it ... captures [a] ... repertoire of elephant behavior and communication"--Publisher marketing.

Chinese Music Oct 28 2019 Contains 9 pages of description of the Chinese Lute in French and 4 pages of a music score written in Chinese. Also includes two scores by Confucius translated from Chinese musical notation, with description in French.

A Complete History of Music, for Schools, Clubs, and Private Readings Mar 26 2022

The Fortunes of the Courtier Oct 21 2021 This book aims to understand the different readings of Castiglione's *Cortegiano* or *Book of the Courtier* from the Renaissance to the twentieth century.

Parasiticide Screening May 28 2022 *Parasiticide Discovery: In Vitro and In Vivo Tests with Relevant Parasite Rearing and Host Infection/Infestation Methods, Volume Two* presents valuable screening methods that have led to the discovery of the majority of parasiticides commercialized in the animal health industry. As much of the knowledge of parasiticide discovery methods is being lost in the animal health industry as seasoned parasitologists retire, this book serves to preserve valuable methods that have led to the discovery of the majority of parasiticides commercialized in animal health, also giving insights into the in vitro and in vivo methods used to identify the parasiticide activity of compounds. Addresses current issues of resistance, along with combination uses for resistant parasites Presents useful, authoritative information (chemical, pharmaceutical, clinical, etc.) for the pyrantel family of compounds Includes a discussion on screening methods in combination therapies Provides cutting-edge material for an evolving area of scientific discussion Includes in vitro and in vivo screens and parasite maintenance and culture methods

The History of Music in Performance Sep 19 2021 Today our musical life has become more and more centered on the performer, who often overshadows the composer himself. What are the interpreter's rights? Where are his limits? Here is a book devoted to the performer's approach to music and to the different styles of interpretation.

The Lost Mine Nov 09 2020 Poirot relates the story of how he acquired 14,000 shares of a lead mine by investigating the death of a Chinese man whose family was selling the mine. **Online Library familiesgivingback.org on December 3, 2022 Free**

The Dead Ladies Project Dec 11 2020 When Jessa Crispin was thirty, she left Chicago and took off for Berlin. Half a decade later, she's still on the road, in search not so much of a home as of understanding. Fascinated by exile, Crispin travels an itinerary of places that have drawn writers who needed to break free from their origins and start afresh. She reflects on Maud Gonne fomenting revolution, on Nora Barnacl, Rebecca West, Margaret Anderson and Jean Rhys.

Unformed Landscape Feb 22 2022 *Unformed Landscape* begins in a small village on a fjord in the Finnmark, on the northeastern coast of Norway, where the borders between Norway, Sweden, Finland, and Russia lie covered in snow and darkness, where the real borders are between day and night, summer and winter, and between people. Here, a sensitive young woman like Kathrine finds few outlets for her desires. Half Norwegian, half Sami (an indigenous people), Kathrine works for the customs office inspecting the fishing boats arriving regularly in the harbor. She is in her late 20s, has a son from an early marriage, and has drifted into a second loveless marriage to a man whose cold and dominating conventionality forms a bold stroke through the unformed landscape of her life. After she makes a discovery about her husband that deeply wounds her, Kathrine cuts loose from her moorings and her confusion and sets off in search of herself. Her journey begins aboard a ship headed south, taking her below the Arctic Circle for the first time in her life. Kathrine makes her way to France and has the bittersweet experience of a love affair that flares and dies quickly, her starved senses rewarded by the shimmering beauty of Paris. Through a series of poignant encounters, Kathrine is led to the richer life she was meant to have and is brave enough to claim. Using simple words strung together in a melodic alphabet, Peter Stamm introduces us, through a series of intimate sketches, to the heart of an unforgettable woman. Her story speaks eloquently about [Outiselinde](https://www.outiselinde.com)

the fragility of love, lost illusions, and self-discovery. From the Trade Paperback edition.

Difficult Reputations Sep 27 2019 We take reputations for granted. Believing in the bad and the good natures of our notorious or illustrious forebears is part of our shared national heritage. Yet we are largely ignorant of how such reputations came to be, who was instrumental in creating them, and why. Even less have we considered how villains, just as much as heroes, have helped our society define its values. Presenting essays on America's most reviled traitor, its worst president, and its most controversial literary ingénue (Benedict Arnold, Warren G. Harding, and Lolita), among others, sociologist Gary Alan Fine analyzes negative, contested, and subcultural reputations. *Difficult Reputations* offers eight compelling historical case studies as well as a theoretical introduction situating the complex roles in culture and history that negative reputations play. Arguing the need for understanding real conditions that lead to proposed interpretations, as well as how reputations are given meaning over time, this book marks an important contribution to the sociologies of culture and knowledge.

The Diary of Ma Yan Sep 07 2020 Wednesday, November 7 My father gave me and my brother a little money. My stomach is all twisted up with hunger, but I don't want to spend the money on anything as frivolous as food. Because it's money my parents earn with their sweat and blood. I have to study well so that I won't ever again be tortured by hunger. . . . In a drought-stricken corner of rural China, an education can be the difference between a life of crushing poverty and the chance for a better future. But money is scarce, and the low wages paid for backbreaking work aren't always enough to pay school fees. Ma Yan's heart-wrenching, honest diary chronicles her struggle to escape hardship and bring prosperity to her family through her persistent, sometimes desperate, attempts to continue her schooling. First published in France in 2002, the diary

created an outpouring of support for this courageous teenager and others like her -- support that led to the creation of an international organization dedicated to helping these children . . . all because of one ordinary girl's extraordinary diary.

Grave Bound Apr 02 2020 Emily Riddle has lived her entire life inside a patriarchal commune led by her father. There are many rules, but the most important one, 'keep it in the commune', is the most difficult for her to follow... especially since the only people willing to champion her cause live on the outside. When Emily learns her father has promised her to Lorenzo, a perverted man who has plans for her that extend well beyond marriage and kids, she rebels. Regardless of the consequences, she refuses to marry someone who'd rather beat her than caress her. A day of hooky that starts out as a tiny act of defiance - sneaking out of the commune for a swim - turns into a day filled with hope. After spending time with Levi, a man camping near the lake, she finds what true romance looks like and catches a glimpse into a future that's filled with love and admiration rather than hate and submission. That tiny peek is enough to change the course of Emily's existence and makes it nearly impossible for her to go back to the commune and pretend she'll ever be able to tolerate the life chosen for her instead of the life she longs for. One that includes Levi. Fighting to escape the commune, its leaders, and her fiance proves to be more dangerous than Emily expected. The secrets she knows, as the leader's daughter, will either follow her to the grave or send her - and Levi - there.

Industrial Mathematics Jul 30 2022 This book provides a concise, single-source survey of all the mathematics most useful in industry today-- particularly modeling and the unit \$. Each chapter begins with a brief review of some relevant mathematics; then introduces the industrial extension of this same material via typical real-world applications. The power of interweaving analytic with computing methods during problem solving is demonstrated throughout and MATLAB code is integrated throughout.

Surviving Evidence: Memoir of an Extreme Haunting Survivor

Dec 23 2021 DiCesare's view of life was forever changed by a series of horrifying events in and around his dorm room: C2D1 of Erie Hall. From early February through late April of 1985, he and his college friends would endure what is now called The C2D1 Haunting. Apparitions sighted, strange voices heard, moving objects witnessed and physical attacks all became part of the ordeal shared by Chris - who quickly became the focal point of the haunting. Featured on the SyFy channel's show School Spirits. Please, talk with me premiered at SCARE-A-CUSE on September 14th, 2012 along with a companion book by the Rev. Tim Shaw. Historic relevancy, individual morality and the application of the paranormal experience in relation to free will are all deftly addressed in the context of the ten-week haunting by the person who witnessed it first-hand and survived it.

cell cycle, and the cytoskeleton. In addition, cell-type specific methods for targeted ablation or isolation are provided, protocols to apply “omics” technologies and to perform bioinformatics data analysis, as well as methods relevant for aspects of biotechnology or plant breeding. This includes protocols that are relevant for the targeted manipulation of pathways, for crop plant transformation, or for conditional induction of phenotypes. Written for the highly successful *Methods in Molecular Biology* series, chapters include introductions to their respective topics, lists of the necessary materials and reagents, step-by-step, readily reproducible laboratory protocols, and tips on troubleshooting and avoiding known pitfalls. Authoritative and practical, *Plant Germline Development: Methods and Protocols* serves as a comprehensive guide not only to studying basic questions related to different aspects of plant reproductive development but also for state of the art methods, in addition to being a source of inspiration for new approaches and research questions in many laboratories.

Sex Museums Aug 31 2022 Winner of the 29th annual Lambda Literary Award for LGBT Studies All museums are sex museums. In *Sex Museums*, Jennifer Tyburczy takes a hard look at the formation of Western sexuality—particularly how categories of sexual normalcy and perversity are formed—and asks what role museums have played in using display as a technique for disciplining sexuality. Most museum exhibits, she argues, assume that white, patriarchal heterosexuality and traditional structures of intimacy, gender, and race represent national sexual identity.

for their visitors. *Sex Museums* illuminates the history of such heteronormativity at most museums and proposes alternative approaches for the future of public display projects, while also offering the reader curatorial tactics—what she calls queer curatorship—for exhibiting diverse sexualities in the twenty-first century. Tyburczy shows museums to be sites of culture-war theatrics, where dramatic civic struggles over how sex relates to public space, genealogies of taste and beauty, and performances of sexual identity are staged. Delving into the history of erotic artifacts, she analyzes how museums have historically approached the collection and display of the material culture of sex, which poses complex moral, political, and logistical dilemmas for the Western museum. *Sex Museums* unpacks the history of the museum and its intersections with the history of sexuality to argue that the Western museum context—from its inception to the present—marks a pivotal site in the construction of modern sexual subjectivity.

Toxocara Aug 07 2020 *Toxocara* is a parasitic helminth worm which continues to stimulate both public concern and scientific interest. *Toxocara canis* and *T.cati*, the most studied species, are gastrointestinal parasites of dogs and cats and their eggs can contaminate the environment, thus exposing humans and other mammals and birds to infection. Many questions remain unanswered about the host-parasite relationship, its epidemiology and public health significance. Veterinarians and clinicians are interested in its importance as a zoonosis. The parasite's capacity to cause ocular disease is of concern to ophthalmologists, while its propensity to stimulate allergic manifestations is of interest to allergologists, dermatologists and respiratory medicine specialists. Furthermore *Toxocara* provides a unique model system to explore questions in parasite biology. This book provides a comprehensive review of *Toxocara* and the disease it causes known as toxocariasis.

How Dogs Work Nov 29 2019 Two experts, drawing [On the tables familiesgivingback.org](https://www.familiesgivingback.org) on December 3, 2022 Free Download Pdf

of research and field experiments, unlock the origins of many of our dogs most common, most puzzling and most endearing behaviors, and explore such canine mysteries as why dogs play, why they bark, how they feed and forage, why they guard and herd and much more.

Willem de Kooning Nonstop Jul 26 2019 This image-rich essay offers a radical rethinking of the ab-ex painter Willem de Kooning by one of the greatest American art critics. Many have written about de Kooning s startling canvases of monstrous women, but none have approached them this way. In prose as energetic as her subject, Rosalind Krauss demonstrates how de Kooning could never stop reworking the same subject. Deploying one telling image after another, she shows that, from the early days of his career, de Kooning nearly always (1) worked with a tripartite vertical structure, (2) projected his own figure and point of view as the (male) artist into the painting, and (3) was compelled to produce the female figure, legs splayed obscenely or knees projected into the viewer s space in practically everything he made. Hidden in plain sight even in paintings of highways, boats, and landscapes, Woman is always there. How could we have missed this?"

A History of Aesthetic Mar 02 2020 Among the ancients the fundamental theory of the beautiful was connected with the notions of rhythm, symmetry, harmony of parts; in short, with the general formula of unity in variety. Among the moderns we find that more emphasis is laid on the idea of significance, expressiveness, the utterance of all that life contains; in general, that is to say, on the conception of the characteristic. -from "Definition of Beauty" T.H. Green called him "the most gifted man of his generation." Certainly he was one of the most popular and most influential British idealists of the early 20th century, and an intellectual cousin of Ludwig Wittgenstein and Bertrand Russell. In this definitive work, first published in 1892, Bernard Bosanquet explores the realm of aesthetics-the philosophy of art-from a romantic, almost mystical perspective, discussing how the appreciation of art exposes the spirituality of humanity, and why it is a vital component to any metaphysical understanding of the universe. From the earliest Greek poetry and Latin comedy to very modern ideas about "ugly beauty" and the impact of science on art, Bosanquet will change the way you look at art. British scholar and philosopher BERNARD BOSANQUET (1848-1923) also wrote, among his many works, Logic, or the Morphology of Knowledge (1888), The Civilization of Christendom and Other Studies (1893), and Social and International Ideals: Being Studies in Patriotism (1917).

Maccheroni Books Jul 18 2021

Blood Runs Green Aug 26 2019 On May 26, 1889, four thousand mourners proceeded down Chicago's Michigan Avenue, followed by a crowd forty thousand strong, in a howl of protest at what commentators called one of the ghastliest and most curious crimes in civilized history. The dead man, Dr. P. H. Cronin, was a respected Irish physician, but his brutal murder uncovered a web of intrigue, secrecy, and corruption that stretched across the United States and far beyond. O'Brien tells the story of Cronin's murder from the police investigation to the trial-- and the story of

Old Granny Fox Apr 26 2022 When a deep winter snow carpets the Green Forest and nearby meadow, Granny Fox and Reddy have some disagreements on how best to find some food. But Granny - with her years of experience - wins out over Reddy and teaches him quite a bit about patience, common sense, and resourcefulness.

A Comparative Perspective on Major Social Problems Jan 24

2022 In this volume Rita J. Simon brings together a clearly organized and accessible collection of scholarly essays on the world's most pressing social problems. Each of the contributors address a specific issue--gambling, prisons, alcohol, AIDS, rape, prisons, juvenile justice, abortion, and guns--by examining the institutions and laws different societies have developed for containing them. Each of the countries selected represents a range of variations in political, economic, religious/ethical/social orientations and characteristics. This comparative and interdisciplinary world perspective makes Simon's edited volume uniquely relevant to political scientists, sociologist, criminologists, psychologists and the broader audience of scholars and laypeople interested in the study of contemporary social problems.

Riot Days Jun 16 2021 A Pussy Rioter's riveting, hallucinatory account of her years in Russia's criminal system and of finding power in the most powerless of situations In February 2012, after smuggling an electric guitar into Moscow's iconic central cathedral, Maria Alyokhina and other members of the radical collective Pussy Riot performed a provocative "Punk Prayer," taking on the Orthodox church and its support for Vladimir Putin's authoritarian regime. For this, they were charged with "organized hooliganism" and were tried while confined in a cage and guarded by Rottweilers. That trial and Alyokhina's

subsequent imprisonment became an international cause. For Alyokhina, her two-year sentence launched a bitter struggle against the Russian prison system and an iron-willed refusal to be deprived of her humanity. Teeming with protests and police, witnesses and cellmates, informers and interrogators, Riot Days gives voice to Alyokhina's insistence on the right to say no, whether to a prison guard or to the president. Ultimately, this insistence delivers unprecedented victories for prisoners' rights. Evocative, wry, laser-sharp, and laconically funny, Alyokhina's account is studded with song lyrics, legal transcripts, and excerpts from her jail diary—dispatches from a young woman who has faced tyranny and returned with the proof that against all odds even one person can force its retreat.

Abkhassians: the Long-living People of the Caucasus Aug 19 2021

Siena May 16 2021 Jane Tylus's Siena is a compelling and intimate portrait of this most secretive of cities, often overlooked by travelers to Italy. Cultural history, intellectual memoir, travelogue, and guidebook, it takes the reader on a quest of discovery through the well- and not-so-well-traveled roads and alleys of a town both medieval and modern. As Tylus leads us through the city, she shares her passion for Siena in novelistic prose, while never losing sight of the historical complexities that have made Siena one of the most fascinating and beautiful towns in Europe. Today, Siena can appear on the surface standoffish and old-fashioned, especially when compared to its larger, flashier cousins Rome and Florence. But first impressions wear away as we learn from Tylus that Siena was an innovator among the cities of Italy: the first to legislate the building and maintenance of its streets, the first to publicly fund its university, the first to institute a municipal bank, and even the first to ban automobile traffic from its city center. We learn about Siena's great artistic and architectural past, hidden behind centuries of painting and rebuilding, and about the distinctive characters of its different neighborhoods, exemplified in the Palio, the

competitive horserace that takes place twice a year in the city's main piazza and that serves as both a dividing and a uniting force for the Sieneese. Throughout we are guided by the assured voice of a seasoned scholar with a gift for spinning a good story and an eye for the telling detail, whether we are traveling Siena's modern highways, exploring its underground tunnels, tracking the city's financial history, or celebrating giants of painting like Simone Martini or giants of the arena, Siena's former Serie A soccer team. A practical and engaging guide for tourists and armchair travelers alike, Siena is a testament to the powers of community and resilience in a place that is not quite as timeless and serene as it may at first appear.
